

Small (T5 8W)

Medium (T5 21W)

Large (T5 28W)

shard pendant

Reminiscent of shards of glass shattering in mid air, the Shard pendant makes use of fragmented two dimensional forms to create an angular geometric shell.

This multi-faceted lightweight light fitting is available in a multitude of translucent acrylics and can be hung in a linear function or random angular formations to create a unique aesthetic in any space.

key features

- _ energy efficient T5 fluorescent technology
- _ available in a multitude of translucent acrylics
- _ suitable for indoor environments
- _ comes with 3 metres of power cable
